

Class: Year 3
Week Beginning:
7.6.21

If you would like to explore some of your learning from this week at home, just click on the links below. We hope you will enjoy these opportunities!

Maths

Year 3 Maths group (Mrs Begum's Maths group)

[To identify and recognise angles](#)

In this lesson, we will start to understand what the word 'angle' means. We will begin to identify angles within objects and shapes before we start to compare the size of angles.

(Mrs Juned's Maths group)

[To recognise obtuse and acute angles](#)

In this lesson, we will be building on our angle knowledge by introducing the terms acute and obtuse for those angles which are smaller (acute) and greater (obtuse) than right-angles. We will have time to look at these angles separately and within different shapes.

Miss Collins group

[To identify one half of a shape](#)

In this lesson we will be exploring what equal and unequal mean and finding half of a shape by dividing it into two parts.

TTRS

Remember to practice your times tables every day!

[Times Tables Rock Stars](#)

Spelling, Punctuation and Grammar

SPAG

[To explore non-finite subordinate clauses](#)

In this unit, we will develop our knowledge of non finite subordinate clauses. We will then practise writing some complex sentences which can be used in our letter writing. In this unit, we will be discussing issues of racism and discrimination in Britain. For some people this will be a sensitive topic. If that applies to you, you may want to do the rest of this lesson with a trusted adult nearby who can support.

Reading

Read a book of your choice. Search for books via the age group 7-9.
