

Maths

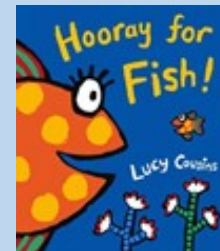

- Use lots of different sized containers in the bath or paddling pool to fill and pour. Can you make the container full and empty? Which container holds more/less? How do you know?
- Extend by counting how many cups of water you can fit into each container? Can you guess the number first? Can you match the right number?

Book Recommendation

Hooray for Fish

by Lucy Cousins

Under the Sea

Expressive Art and Design

- Try making an under the sea creature. What will you need? Have a look at photos to get some ideas.
- Do bubble painting.
[Bubble painting instructions](#)
- Paint, draw or make a collage picture of under the sea. Look at photos on internet. Which under the sea creatures will you include?

Phonics

Sound talk simple objects from the around the home e.g. c-u-p, h-a-t. Can you find the object? Encourage children to say the letter sounds back to you.

Play 'I spy' encouraging children to hear the initial letter sound in words.

Understanding of the World

- Collect some household objects. Use the bath or sink to explore which ones float or sink.
- Try the skittles and water experiment. Talk about the changes that occur.
[Skittles experiment](#)
- Find out about under the sea creatures. Look at books and the internet. You could draw pictures of the sea creatures and learn facts about them.

Literacy

- Make an under the sea Father's Day card.
- Draw your favourite fish from the story e.g. spotty fish, curly whirly fish. Can you describe your fish?
- Have a go at copying or tracing a label for your fish. Which letter sounds can you hear in your descriptive word?
