

HOW TO MAKE A LION MASK

1. Draw the shape you can see in the photo onto the back of your paper plate.

2. Cut the shape carefully and keep the rest to make your lion mask ears.

Paint or colour the front of both pieces of paper plate whatever colour you want your lion. Yellow, orange or brown work really well.

Use some brown paint or colour for the nose and ears.

3. On card or paper, use your hands that make lots of handprints to make the lions mane. You can use all one colour paint or a mixture.

4. To make your lion mask's whiskers take three yellow straws and stick them together in a row on the short side just below the bendy part.

Spread out straw lengths and cut both ends to a whisker size.

Repeat to make a set of whiskers for both sides of your lion mask .

5. Tape your straw whiskers onto the back of your lion mask nose.

If you want to you add nostrils onto the front of your lion's nose with a marker

6. To make your lion mask's whiskers take three yellow straws and stick them together in a row on the short side just below the bendy part.

7. Put small holes on both sides of your mask and use elastic/ thread or stick lollipop stick to hold your mask
